

Suzlon Energy A/S

DK Det er ikke tilfældigt, at den indiske vindmølleproducent Suzlon Energy har valgt Danmark som brohoved for deres ambitiøse vækstplaner, idet Danmark er anerkendt som verden største center for viden og know-how om vindenergi.

Suzlon Energy Ltd. er den førende vindmølleproducent i Indien og den femte største vindmølleproducent i verdenen målt på årlig installeret kapacitet ved udgangen af 2005.

Produktionen foregår i Indien, men nye produktionsfaciliteter planlægges etableret på fokusmarkederne. Derudover er der udviklingsafdelinger i Tyskland og Holland, som beskæftiger sig med udvikling af naceller og møllevinger.

Suzlon Energy A/S blev etableret i slutningen af 2004 og er hovedsæde for alle internationale aktiviteter uden for Indien. Fokusmarkerne er USA, Australien og Kina, hvor der allerede er oprettet datterselskaber, samt udvalgte europæiske lande.

Det danske hovedsæde, som ligger centralt i Århus og med storslået udsigt over havnemiljøet og bugten, er et kompetencecenter med meget kvalificerede medarbejdere med ekspertviden inden for vindenergi og med solid international erfaring. Samlet set har de godt 35 medarbejdere mere end 120 års erfaring fra vindindustrien og 170 års international erfaring. Hovedopgaverne er globalt ledelsesansvar, marketing, salg, projektimplementering, installation samt service, herunder koordinering med og support til datterselskaberne.

UK It is no coincidence that the Indian wind turbine manufacturer Suzlon Energy has chosen Denmark as spearhead for its ambitious growth plans as Denmark is recognised as the world's leading centre for wind power know-how.

Suzlon Energy is India's leading wind turbine manufacturer and the world's fifth largest wind turbine manufacturer in terms of annually installed capacity at the end of 2005.

The wind turbines are manufactured in India, but new manufacturing facilities are being established in the focus markets.

In addition, Suzlon Energy has research & development units of nacelles and blades in Germany and Holland.

Suzlon Energy A/S was established at the end of 2004 and is headquarters for all international activities outside India. The focus markets are the USA, Australia and China where subsidiaries have already been established as well as selected European countries.

The Danish headquarters centrally located in Aarhus with a splendid view of the harbour and bay is a competence centre with highly skilled employees with wind

power expertise and solid international experience. Together the some 28 employees have more than 100 years of experience from the wind power industry and 150 years of international experience. The main tasks are global management, marketing, sales, project implementation, installation as well as service including coordination with and support to the subsidiaries.
